EXPERIENCE

Lead Software Engineer — Disney Streaming

Aug 2022 - Present · Remote

Member of Content Distribution & Origin team serving content for Disney+, Hulu, ESPN+, etc.

- Contribute to the implementation and deployment of the data plane and supporting software for the Disney Origin, Mid-Tier, and Edge appliances and CDNs
- Improve Server Maintenance feature to pull Varnish servers out of cluster without impacting users, including coordination with Varnish, Apache Traffic Router/Monitor, internal monitoring/configuration management, and Bird/BGP
- Design and implement operational tooling for health monitoring, traffic engineering, and other critical functions

Senior Site Reliability Engineer — VMware

Oct. 2019 - Aug. 2022 · Remote

Maintained and managed testing lab for all of VMware Security Business Unit (Carbon Black)

- Helped spearhead effort to move entire lab across the country from Massachusetts to Washington State with almost no downtime or impact to users
- Maintained large vSphere lab environment serving hundreds of engineers and thousands of VMs per week
- Migrated existing services to on-prem Kubernetes solutions using Tanzu (TKG)

Senior Software Development Engineer in Test — Carbon Black

Aug. 2016 - Oct. 2019 · Remote

Automation, continuous integration, QA testing

- Helped design and implement automated testing suite for multiple products across Windows/Linux/Mac using Python/pytest, Docker, vCenter, and Jenkins w/Groovy pipelines
- Mentored existing engineers on best practices and provide code reviews
- Evangelized and promoted automation across the company and leadership

Quality Engineer — Hudl

Sept. 2014 - Aug. 2016 · Remote

Automation, continuous integration, QA testing

- Authored and maintained scalable and expandable automated testing framework in Python for Selenium (web) and Appium (mobile) testing, as well as HTTP/REST/GraphQL integration testing
- Interviewed, graded projects, and helped hire dozens of candidates across all roles including interns, engineers, PMs, and VPs
- Co-lead "Security Guild", focused on security related issues at Hudl, and best practices

Software QA Engineer — Avere Systems

Feb. 2013 - Aug. 2014 · Remote

Tested products and features to maintain quality and find bugs

Customer Experience Engineer — Avere Systems

Jul. 2011 - Feb. 2013 · Pittsburgh, PA

Member of team of versatile support engineers handling all customer and internal support requests

Linux Systems Administrator — LocalNet Corp.

Feb. 2009 - Jul. 2011 · Buffalo, NY

Member of small team of administrators responsible for 300+ server infrastructure

Technical Support Engineer II — Ingram Micro

Sept. 2006 - Feb. 2009 · Buffalo, NY

Admin/System Builder/Web Developer — Cyber Source

Jan. 2002 - Sept. 2006 · Buffalo, NY

SKILLS

Languages

Python (Advanced), Bash (Advanced), PowerShell (Advanced), HTML5 / CSS (Intermediate), PHP / Perl / Java (Basic), JavaScript (Basic), Ruby (Basic)

Systems Administration

Linux (Advanced), Windows (Experienced), macOS (Experienced)

Infrastructure & DevOps

Varnish Cache (HTTP accelerator), AWS (EC2, S3, Lambda, etc.), Containerization/Orchestration (Docker, Kubernetes, Tanzu/TKG), CI/CD (Jenkins, TeamCity, GitLab CI, Travis CI), Configuration Management (Puppet, Chef, Ansible, Salt), Virtualization (VMware vCenter/ESXi, Hyper-V, Xen, VirtualBox), Web Servers (Apache, NGINX), Graylog / ELK (Elasticsearch, Logstash, Kibana), Storage Networking (SAN, NFS, SMB, NAS), Git / GitHub / GitLab

Testing & Quality

Automated testing (unit, integration, end-to-end), JMeter load testing

Other

Networking & packet analysis (tcpdump, Wireshark, firewalls), Building servers/hardware, consumer to enterprise, Agile methodologies (Scrum, Kanban), Mail servers (Sendmail, Postfix, qmail), MySQL, PostgreSQL

EDUCATION

ITT Technical Institute

Associate of Occupational Studies, Information Technology - Computer Network Systems · 2004 - 2006

CERTIFICATIONS & TRAINING

CCNA - Cisco Certified Network Associate

Cisco

Security Engineering on AWS training

AWS

Architecting on AWS training

AWS

This is a condensed summary — earlier roles are shown without full detail, and projects, open-source contributions, talks, and recommendations are omitted. For the complete résumé, see jessejoe.com.
